

# Closet Items to Wash Every Season

## Don't forget to wash what's in your closets.

It's easy to forget to care for items we keep in our closets, but things like jackets, bags & sports gear need regular washing to keep them looking good. CSC recommends washing these items with the change of every season, or more often as needed.

**Jackets:** be sure to check washing & drying instructions beforehand.

**Sports Gear:** shin guards, knee pads, compression sleeves & yoga mats

**Backpacks & Duffel Bags:** fabric & vinyl ones can be tossed in the washer with a regular load of similar colored laundry

**Soft-Sided Lunch Bags & Boxes:** have potential to be contaminated with bacteria from the foods inside and need to be washed regularly.

**Reusable Grocery Bags:** especially those used for produce & meats should be washed after every use.
