

Kitchen Essentials to Wash More Often

Did you know you could wash these kitchen items?

You know it's best to wash your kitchen towels (for dishes and hands) daily, but did you know that these other kitchen items should also be washed regularly.

Silicone baking mats & molds – toss in with regular laundry and put small items in a mesh laundry bag. Make sure to air dry.

Oven mitts & hot pads – wash and dry along with your kitchen towels

Small Kitchen Rugs - be sure to shake out in advance of washing, wash separately, and dry on low heat.

Mop heads, sponges & rubber gloves – remove from handles and place in mesh laundry bag with a load of towels. Dry completely before storing.
